

NOT RUNAWAYS BUT ARE LOYAL PATRIOTS

Youthful High School Boys Will
Be Given Consent To Gratify
Their Patriotic Ambitions

THEY HEARD UNCLE SAM CALL

Two Clearfield lads, the one nicely past seventeen and the other yet in his sixteenth year, quietly dropped out of town Friday last without saying a word to any person as to just where they were going. When they failed to show up at the family breakfast table Saturday morning their dads became somewhat anxious about their first-borns and immediately began a quiet investigation as to their whereabouts. Both boys were members of the Sophomore class at the High School and when their cronies were quizzed about their disappearance one fellow said he believed "they had gone away to join the army."

Saturday evening's mail brought two letters to Clearfield that told the story. These letters were addressed to O. B. Porter and J. L. Johnson and were of similar import. Mr. Porter was informed that his son William, in his 18th year, had applied for enlistment in Co. "A", 18th Regiment N. G. P. at Pittsburgh, passed the required examination and only needed his parents consent to become a full fledged soldier and defender of Uncle Sam and his flag. Mr. Johnson was informed that his son Wayne in his 16th year was in the same situation. Johnson has already been made Captain's clerk and both boys expect to be able to enter West Point after the Kaiser gets his licking.

Young Porter and Johnson left here last Friday on the 1:15 P. R. R. train—as runaway boys—but Clearfield was not inspired by discontent with home life. It was inspired by devout tendencies such as alts in boys leaving home. It was inspired by a sense of duty and patriotism and a desire to be in the defense of our country was the prompting. They were under the enlistment they probably knew parents would be loath to do. When their absence was their parents instituted a search and it was not long after that they were in Pittsburgh and just after of young Porter was sent to have them picked up a letter was received.

ad. Am alright. Do not let me. Left kind of sudden a fellow who was that train and I came with took an examination at the station and qualified very well. I need is your consent and says I will be shouldering a r Uncle Sam. Please sign a paper and have the Dismissal or Postmaster sign for me to get a job here until you. Send immediately, not the first time that boys away from home to enlist. I am not the only boys to enlist in this manner to defend of Old Glory but to know these boys there is a admiration for their manly-patriotic purpose. But if it is seen in their act how must be credited to the who are called upon to give. The fires of patriotism are home today but to those who are called upon to make own the greater devotion of first born on the altar of a human sacrifice that a Spangled Banner may wave "Over the Land of the the Home of the Brave," because these boys were the go out of Clearfield in this cannot help but bid them who shall follow them God-All honor to Wayne Johnson and P. Porter. May they let honorably serve creditably and safely to the shelter of the glory of Uncle Sam.

Ona Baum-gardner of River street, home after spending Sunday with relatives and in Lock Haven.

He was not expected to arrive until later in the week but his early arrival will bring the first conference about Wednesday afternoon.

Branch bureaus have been opened in various places and should other offices do as well as Harrisburg today's enrollment of farm workers will be at least one hundred.

Big Wage Increase For Brick Makers

Harbison-Walker Refractories Company Again Raise Their Men

The Harbison-Walker Refractories company posted notices at all their brick plants in this section Saturday last to the effect that beginning May 1st, 1917, all their employees would be granted a raise in pay of twenty cents per day.

The increase affects several thousand men in central and western Pennsylvania and will mean that common laborers at these plants will receive \$2.50 per day after May 1st.

The Harbison-Walker company also granted a 15 per cent increase in wages about March 1st.

In addition to the wage increase the employees at the different plants were also notified that they would be privileged to utilize any part of the lands of the company for gardens or farm purposes and the company would help them in every way to plant same.

This example should be followed by all our industrial and manufacturing plants wherever possible and will go a long way toward solving the high cost of living problem.

MUST'N'T DO IT AGAIN

Mrs. Eliza Wise returned to her home in DuBois on Saturday after spending a week with her son, Lewis, and family of River street.

Joe, The Turk, Pleased With His Reception

Will be on Hand Tonight With a New Line of Entertainment

That the Salvation Army "Special," Joe the Turk, made a hit with Saturday night shoppers is putting it mildly. He was born in Constantinople but his Americanism and Salvationism is above reproach. He has been an American citizen for over thirty years. The usual evening meetings on the corner will be held tonight and after the street meeting Joe will give a sacred concert in the Army Hall to which an admission of ten cents will be charged. A special feature of the concert will be the exhibition of a two edged sword exactly of the kind described in the Bible.

Germany Tries Quietly To Revive Peace Talk

Agents Busy Fomenting Fake Peace Proposals to Fool Enemies

(By United Press)

The Hague April 16 1917.—Bulletin.—Secretly Germany is trying to revive peace talk. Rumors of peace are again current all over Europe and all seem to have their origin in the German empire or among their agents in other countries. Apparently there is a desire on the part of German diplomatic agents to keep alive this peace talk but whether it is for the purpose of keeping the subject open or simply to throw enemies off their guard remains to be seen. In December Germany asked for peace on their conditions and were refused and it is thought that they wish to keep the door open in case they decide to make another request for relief from the drain of war.

CARD OF THANKS

The Woman's Auxiliary of the Clearfield hospital wish to publicly thank the president and members of the School Board, the superintendent of schools and the teachers and pupils of the Market street school, the leader and members of the High School chorus for the benefit they derived from "The Festival of the Nations." Over fifty dollars of the ninety dollars received will be applied at once to indebtedness for the muslins used in the hospital gowns and made by the women of our town.

Scotty Soon Proved Himself An American

Issues Challenge to Another Resident Of Burnside

A detail of soldiers located at Dower Junction just below Burnside, arrived in town Saturday afternoon having in charge one Jack Davidson, of Glen Campbell. Jack was charged with showing disrespect to the flag. He was taken before District Attorney Walter Welch and in response to a mild grilling soon told the story leading up to this arrest by the soldiers.

According to Jack's story, on March 21st he was in Burnside and some person pinned a miniature American flag on his hat. In taking his hat off the flag pin pricked his finger and without looking at it or knowing what it was he yanked the flag from the hat and threw it down. Harvey Strickland witnessed the incident and hotly resented the throw down of the flag. Jack got his Scotch up and a battle royal resulted in which Scotty gave a good account of himself.

The affair was more or less magnified, due to the state of public feeling just now and the arrest followed. At the conclusion of the young man's tale he strenuously asserted his loyalty to the flag and Uncle Sam and the District Attorney asked him why he didn't prove his patriotism by enlisting in the army. He promptly said he would if he could get to a recruiting office.

Lieutenant Everitt Noble who was in charge of the "prisoner" made a superficial examination of the prospect—a husky specimen of young manhood—and said he believed there would be no question about him being accepted as a soldier and District Attorney Welch went down in his jeans for money for transportation to DuBois and turning the recruit over to Officer John Devine of the DuBois police force, who happened to be present, sent Davidson out on the 7:15 train for enlistment.

On the way to the train the soldier stopped at The Progress office and asked us to publish this story and request Strickland to show his real patriotism by also enlisting.

COURT NOTES

Charles Conrad, Samuel Knolls and James Neff, who entered pleas of guilty to charges of assault and battery on Saturday morning out of the lot at the DuBois Brick works near Clearfield, on Thursday of last week, were sentenced by Judge Bell Saturday afternoon. Conrad and Knolls were given \$1 fine and costs and one year in the penitentiary while Neff was sentenced to Huntingdon reformatory. The prisoners were then paroled in the custody of District Attorney Welch and Probation Officer Leavy and the sentences suspended pending the payment of the costs and the continued good behavior of the men.

Joe Dauborrior, the 10 year old DuBois boy, who was before the court last week charged with robbing letter boxes in the DuBois postoffice and was paroled on his promise of good behavior, was before the court again this morning and was sent to jail pending final disposition of his case. Friday night the kid shinned up a rain spout and breaking a second story window, got into the Matthews book store in DuBois and robbed the money drawer of \$9.40 and swiped a lot of goods including a plentiful supply of American flags. He distributed the flags among his friends and this led to his downfall.

C. G. Lewis who has been in jail for several weeks, charged with defrauding the DuBois R. R. Y. M. C. A., was before the court on a plea of guilty and stated that he wished to enlist in the army if he was allowed to go. Judge Bell decided to give him a chance and paroled him in the custody of Probation Officer Leavy pending his enlistment.

Joe Bossman, of Osceola, entered a plea of guilty to a charge of assault and battery. Joe wanted to join the army and do his scrapping under orders but as he could not read or write and had never taken out "first papers" despite his eighteen years residence in this country, he couldn't make it and was sent back to jail until May court.

Judge Bell made an order and decree authorizing the supervisors of Decatur township to levy an additional tax of five mills for road purposes. The present millage is ten mills, but on account of the high cost of living this was insufficient to meet expenses and the additional millage was requested.

BULLETIN

Fighting around St. Quentin and Lens goes on with great fury, the Germans making two desperate assaults with the British stubbornly resisting them. On the other hand the British are quick to seize upon every opportunity to assault German forces and both sides are more aggressive in their fighting. For a time the Germans seemed to have the better of this morning's fighting but by a vigorous assault the British drove them back the two thousand yard foot-hold which they gained this morning. The evacuation of Lens goes on unabated and best informed military critics expect a retreat along the Western front by the Germans.

Winburne Organizes A Red Cross Corps

Little Moving Picture Has 111 Ladies Who Will do Their Bit

The Ladies of Winburne have organized a Red Cross Corps and are rapidly getting in shape to service to their government. It was not supposed that the little town of Winburne could furnish enough material for a complete corps for a place they considered almost as remote as the corps at Philadelphia. Winburne was called upon and there in charge were developed a lot of enough volunteers for a complete corps. One hundred and eleven ladies made up the corps. A notable feature of this particular corps is the fact that it is composed of many nations.

Says He is Now Ready to Shoulder Musket to Hasten End of War

(By United Press)

C., April 16, 1917.—Williams Jennings Bryan called on President Wilson this morning and told him that "he was for anything that would bring the war to a swift and sure conclusion and was ready to shoulder the musket and do his bit." He talked with the President for a full half hour during which time he made an earnest plea for war time prohibition.

Two sisters also survive him: Mrs. Freeman Shope, of Sayrevot and Mrs. Dora Flegal, of Leontes Mills. The funeral will be held from the Murray home in Girard township on Wednesday afternoon at 2 P. Always pleasant and kind hearted he will be greatly missed throughout the county where he was well and favorably known.

HYPHENATE JAILED

Officer John Devine of the City of DuBois, brought an Austrian named Mike Smith to jail Saturday charged with carrying concealed deadly weapons and making seditious utterances against the American government and flag.

The Austrian was giving all things American a verbal lacing out in DuBois Friday night when an Irish American called him to task and put a stopper on his windpipe. The Austrian pulled a wicked looking stiletto but before he had a chance to wield the deadly weapon Officer Devine nailed him and Mayor Haug sent him to jail in default of \$500 bail to answer for his actions at May court.

EX-CONGRESSMEN IN TRIAL IN GERMAN PLOT CASES

New York April 16.—Five Americans, including the two former congressmen, Buchanan and Fowler of Illinois and former Ohio attorney general Monnett, went to trial in Federal court here today charged with conspiring to foment strikes in munition plants in the United States to prevent the manufacture of arms to be used against Germany. They have denied their guilt. They were members of Labor's National Peace Council, a pro-German organization and were connected with Franz von Rittlin, German plotter.

Carranza In Speech To Mexican Congress Declares Neutrality

Speaks For Four Hours From Carefully Written Manuscript and Touches On All Affairs of The Nation

WASHINGTON OFFICIALDOM IS RELIEVED

Mexico is neutral. This statement brought general relief to official Washington this morning when the state department received the answer from Carranza for which they have so long waited and at times despaired of completely. President Carranza yesterday afternoon made a speech to the Mexican congress which is the first one to be delivered in four years. In fact the Congress has not had a regular meeting for that period. He spoke for four hours and read it from manuscript of 200 pages, carefully and closely typewritten. He read in detail on all questions affecting the Mexican American situation and while diplomats sat in expectancy for some reference to the United States he did not touch on it until late in his address but when he did he explained the position of Mexico in unmistakable words of strict neutrality. Several months ago a note was sent to Carranza asking the views of his nation on the World War and this is the first intimation of what the country Mexico would be. The situation so far as the state department at Washington was concerned had grown tense over what they thought was an unwarranted delay in answering the query.

DUGAN-DAUGHERTY

Leo Dugan, of Osceola, and Miss Gussie Daugherty of Clearfield, were united in the holy bonds of matrimony at St. Francis church by Rev. Father M. A. Ryan at 7 o'clock. This morning following the ceremony a wedding breakfast was served at the home of the bride's aunts on Third street and the happy couple left on the 8:20 P. R. R. train for a tour of the eastern cities, after which they will return to their home in Osceola where the groom is in business with his father.

Both bride and groom are well known young people and The Progress join their host of friends in wishing them a long and happy married life.

SARDINES GOING UP

Eastport, Me., April 16.—And so the humble Maine herring, masquerading under the name of sardine, is to contribute its bit to the high cost of living. On the opening of the sardine season today the packers are experiencing considerable difficulty in obtaining enough workmen. They are also hampered by an unusual amount of damage to the weirs by winter storms. Leading packers estimate that the cost of production will be 50 per cent higher than last season, necessitating increased prices for their output.

"To sow discord among the Germans in America is to encourage treason" is the statement of the N. Y. American which is reproduced in the New World (The Fatherland in the current issue. It must be hard for Viereck to understand this phrase. It is possible that he has put the wrong meaning on it, a la Kultur as it were, for when The Fatherland was in full swing George was some dandy gardener when it came to sowing seeds of discord.

SOMEBODY'S MOVE

A few months ago a campaign slogan was Patriotism, Protection and Prosperity but it was the Republican slogan and many have forgotten it by this time. All three still live. Patriotism is rampant. Protection (bodily) is guaranteed us by our military visitors and Prosperity is bringing joy to every household. No, this is not to be a political editorial. We must forget politics for the present. All must answer to the call "Americans" and know Americanism only.

Protection is the word about which we wish to speak here. Protection ought to mean, so far as neighborhood and community affairs are concerned, preservation from loss, injury or annoyance. Ofttimes, however, the word takes on a new meaning. A protection of a private interest or private interests take precedence over the protection of the community or public. This form of protection is responsible for the little annoyances which we condone until they have grown to real evils and disgraces. This form of protection is responsible for the first mongrel dog running loose on our city streets without collar and tag. Very soon others are turned loose until a whole pack can be found most anytime you look out on the streets. Such was the case yesterday and has been the case for some time. Somebody is lax in their duty as an officer. It is not our place to name them. We have been censored for "butting in or running the borough" but we believe the people of Clearfield have a right to something better than the spectacle that we have been treated to on the streets for the past two or three Sundays.

THE UNDER DOG AND THE GREAT

It is not always pleasant to handle the news, particularly when that duty involves the recording of court proceedings and infractions of the law by those who bear the stamp of respectability in their communities, nevertheless the newspaper must necessarily draw a line cutting off all friendship, and financial ties and handle the news of the day impartially. There are at times occurrences of a revolting and nauseous nature which it were better people did not know. Just what to put in this category must be decided by the editor of every newspaper. Public policy demands the suppression of details of many crimes. On the other hand there are many public questions on which the public demands to have all details. This is particularly true of the liquor dealer who disobeys the laws and rulings of the court. For several years judges have found the Brooks License Law to be a failure and have had to resort to special rulings to curb the unnatural appetite of man for rum and the greed of the dealer. Judges may not be willing to admit this but the very fact that special rulings have been made and are being promulgated is the best evidence in the world that the Brooks License Law is a failure. They who break the liquor laws and the special rulings of the Courts are on a par with all others who break the laws of our land. The liquor dealers are conversant with the law and know these rulings and yet both laws and rulings are frequently violated. We see no reason why they should not suffer the same penalty as the underdog who violates the liquor law. One thing is certain. We do not propose to make a weekly mention of the poor devils whose names appear on the records of criminal court and shield the name of him or they who by reputation, precept or example should have known better. A criminal is a criminal whether he be a wife beater, embezzler or violator of liquor laws and court rulings.

The Whatchama Column**BUTTONS**

In considering the great army of unemployed let us not forget buttons. No question about it, there are too many idle buttons in the world.

Thousands, yes, millions of them loaf around on clothes, with nothing to do. They congregate in long, silent rows on men's coatsleeves. They swarm on women's gowns, running aimlessly up and down seams and around collars, without a buttonhole to their name.

The worst about buttons is that they're never where they belong. No sooner do we get a bevy of them engaged in useful occupation on trousers, shirts and underwear than they begin to fly off and hide under beds and in other out of the way places, waiting their chance to flock uselessly upon some already buttonridden article of apparel.

The average button is a nomad; a ne'er-do-well. The vast majority of them simply will not go into a buttonhole and go to work.

We favor government regulation of non-productive buttons. There ought to be a commission appointed to control them.

FORMER LEGISLATORS ACCUSED

Little Rock, Ark., April 16.—The first trials in the so-called legislative bribery cases, in which former members of the Arkansas legislature are involved, is scheduled to start today. The first to be tried is ex-senator S. C. Sims. His trial is to be followed by that of I. V. Burgess, also a former member of the state senate. The two were arrested by city detectives late in February after it was alleged they had been caught in the act of receiving a bribe from John E. Garvey, a Burns detective in the employ of Prosecutor Dunaway, who presented himself as a lobbyist interested in killing a senate bill against gaming stamps. Both members were expelled from the senate after they had been indicted.

TO DISCUSS FOOD PROBLEM

Washington, D. C., April 16.—Problems of agriculture and the food supplies both for home and Entente consumption are to receive attention at the hands of the National Academy of Sciences which met in this city today. Members of the academy subscribe to the view that the United States should send troops to Europe, but assert that would be impracticable unless the government could supply food in sufficient quantities both to maintain national welfare and to supply the Entente. The suggestion will be advanced at the present meeting that a committee of scientists be appointed to urge this phase of economic preparedness upon the government.

NEW MILLPORT

George Sloppy and wife of Akron, Ohio, but formerly of Clearfield, are visiting Mr. Sloppy's father, K. A. Sloppy of this place. George is coming back to his first love and says that he is contemplating making this his home town again. George, we welcome you and yours among us once again.

William Powell, of "Hillcrest," is making us all feel that spring is really here. His "Crest" is beginning to blossom as the rose, chicks are making themselves heard, his humbees are beginning to hum, his butterflies are beginning to flutter, and his old hens are beginning to "squack and squat over every chicken they got, and that old hen knows where that hawk is as well as you, just bet your life she do."

George Spencer, our accommodating blacksmith, has been confined to his house for several days on account of irregular heart action. We hope for his speedy recovery.

Our town veteran and nestor, H. J. Sloppy, has been confined to the house during the past two weeks. On rising one morning he found that a part of his body was not alive to its ordinary function and that his regular locomotion would have to be dispensed with. His friends think that it was not as the "Squire" thought, a slight stroke, but merely a deadening of the right

side limbs. During the past couple of days he has been able to leave the bed and appear at the table with the family. We all hope to see him well and hearty again soon. Mr. Sloppy belonged to Company A, 100th Pennsylvania Regiment, and is very interesting on war topics particularly on Petersburg, Fort Steadman, Appomattox, where he was present during those trying times.

Mr. and Mrs. Chester Bloom of Altoona, are visiting their parents, Mr. and Mrs. John C. Bloom and Mr. and Mrs. George Spencer. Chester expects to domicile in Clearfield in the near future.

"The Roister Doister Dramatic Company" of New Millport, gave us a most excellent evening's entertainment last Friday night in the K. G. E. hall. "All A Mistake," a three act farce-comedy was rendered in a most charming and lively role. Guy Sloppy, although "a little horse" played the role of Lieutenant George Richmond in a most acceptable manner. Captain Obadiah Skinner, uncle of George was impersonated by Lowry Norris. Lowry showed that he could act old even if he is so young. Richard Hamilton by Ivan Sloppy had many clever but trying parts in the comedy, but Ivan came out of them all even if some of the furniture did stick to him. Clifford Biddle acted "Ferdinand Lighthouse," "Doncherry-know." Rev. Biddle scarcely knew his own son and we are informed that "Ferd" had trouble in reinstating himself into the good graces of his best girl, so well did he act the "dude." Miss Kitty Biddle played the part of Nellie Richmond the Lieutenant's wife. Miss Biddle did her part admirably as did her sister Miss Josephine Biddle, who was Miss Nellie Huntington and ever ready to help her friends out of difficulty. She went the limit however in showing what a woman would do to gain the man she loves. Miss Edna Glenn acted the part of Nellie McIntyre the servant girl. Edna demonstrated her ability to interpret the every-day things of life even though it is an Irish girl's life. Miss Orpha Sloppy took the part of Nellie Skinner the Captain's sister. Miss Sloppy did her part charmingly well. In fact Orpha does every thing she undertakes completely and thoroughly. This play will be repeated in the K. G. E. hall Friday night of this week. This will give an opportunity to those to hear it who could not get in last Friday night on account of the large crowd.

One of our patriots received the following letter last week:

Dear Sir,
Replying to your letter of the 6th instant, addressed to the secretary of the navy and by him referred to us, the chief of bureau directs me to inform you that, owing to your age, it will be impossible to authorize you to enlist in the regular navy and to thank you for your offer of service. It is suggested that you take up with the nearest Navy recruiting officer the subject of enrolling in the navy reserve.

Respectfully,
L. B. PORTERFIELD
Lieutenant Commander U. S. Navy

New Millport is alive with patriotism as any one visiting our town will note by the stars and stripes as displayed from the many buildings, but the above letter shows that we are willing to do more than display the colors and talk war.

PIMPLY? WELL, DON'T BE!

People Notice It. Drive Them Off with Dr. Edwards' Olive Tablets

A pimply face will not embarrass you much longer if you get a package of Dr. Edwards' Olive Tablets. The skin should begin to clear after you have taken the tablets a few nights. Cleanse the blood, the bowels and the liver with Dr. Edwards' Olive Tablets, the successful substitute for calomel—there's never any sickness or pain after taking them.

Dr. Edwards' Olive Tablets do that which calomel does, and just as effectively, but their action is gentle and safe instead of severe and irritating. No one who takes Olive Tablets is ever cured with "a dark brown taste," a bad breath, a dull, "no good" feeling, constipation, torpid liver, bad disposition or pimply face.

Dr. Edwards' Olive Tablets are a purely vegetable compound mixed with olive oil; you will know them by their olive color. Dr. Edwards spent years a pug patient afflicted with liver and bowel complaints, and Olive Tablets are the immensely effective result. Take one or two nightly for a week. See how much better you feel. 10c and 25c per box. All dr.

"Today, the specific-gravity test is practically worthless as a check on the suitability of a gasoline, for example, for a given motor equipment. *** It seems most probable that the definition of gasoline will have to be based on the percentage that distills over between specified temperatures, when the distillation is carried out under specified conditions. ***

"The gasoline must not vaporize too freely for two reasons: One, that it would not be safe, and secondly, its loss in storage by evaporation would be too great. Hence, the specification may have to contain limitations of the percentage distilling over below a certain temperature, coupled perhaps with a proviso that certain percentages shall distill over below other fixed temperatures, in order that requisite amounts of low-boiling constituents shall be present to insure easy starting of an engine.

"Likewise the specification must contain a proviso that all must distill over below a certain maximum temperature, in order to exclude from the gasoline the heavier petroleum distillates, such as kerosene."—Official Press-Statement issued by U.S. Govt. Bureau of Standards. We've been preaching and practicing the same thing for years. The boiling point of Atlantic Gasoline is always uniform. It meets Uncle Sam's ideas perfectly.

Atlantic Gasoline has always been a "boiling-point" gasoline. Its fame has been built around the fact that the boiling point is always uniform, assuring each new lot of gas you put in your car to be exactly like the last, thereby banishing the need for frequent carbureter-adjustment.

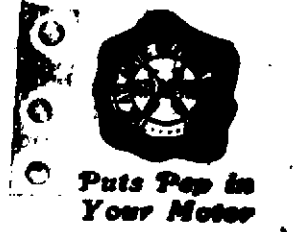

It must be gratifying to the thousands

of motorists who use and have used Atlantic Gas to know that it conforms to the Government's idea of what good gas ought to be. You new motorists: Fill your tank with Atlantic Gasoline, once. You won't need urging after that first tankful. Wherever you live, drive, park or store in all Pennsylvania and Delaware, you can get Atlantic service. So—get it.

Sewing Week

While Spring Sewing Needs Are Uppermost in the Minds Of Women We Announce Home Sewing Week

That the events of this store are always timely is evinced by the fact that this Home Sewing Week comes at the very time when women are buying materials for Spring and Summer clothes and everyone is bent on making new Spring garments. Very special displays have been made of materials of every nature, so as to allow you to make choice of such materials as you are most interested in. Visiting the store during this week secures for you the advantage of seeing our entire dress goods stock on display at one time and to be able to make selection with ease and satisfaction.

It's Only Natural For You to be Interested In This Display of Spring Wash Fabrics.

Every woman will be delighted to view this showing for what women is there who is not now thinking of wash frocks, for the spring and summer days are a'coming? And can you remember ever having seen such wonderfully colored materials as are to be found for this season? Another surprising thing is that these pretty wash materials are marked at EXTREMELY MODERATE COSTS. Any number of women have asked to be shown a certain design and then look at our sales person in amazement when the small cost was mentioned. Some went so far so to say—"Why, these look like silks. I expected they would cost double that price." Most women will visit this wash goods display right after the breakfast table has been cleared.

Special at the Globe Theatre Today

Two figures stand out in sharp contrast in the William Fox photoplay starring Gladys Brockwell "Sins of Her Parent." On the one hand is the Southerner, the man of proud family, who will not see his name dragged in the dust; on the other is the girl who loves the Southerner's son and cannot marry him because of her own uncertain birth. The struggle between the two and the final agreement of the father in the presence of a heroic man, form the thread of the story.

NOT RUNAWAYS BUT ARE LOYAL PATRIOTS

Youthful High School Boys Will
Be Given Consent To Gratify
Their Patriotic Ambitions

THEY HEARD UNCLE SAM CALL

Two Clearfield lads, the one nicely past seventeen and the other yet in his sixteenth year, quietly dropped out of town Friday last without saying a word to any person as to just where they were going. When they failed to show up at the family breakfast table Saturday morning their dads became somewhat anxious about their first-borns and immediately began a quiet investigation as to their whereabouts. Both boys were members of the Sophomore class at the High School and when their cronies were quizzed about their disappearance one fellow said he believed "they had gone away to join the army."

Saturday evening's mail brought two letters to Clearfield that told the story. These letters were addressed to O. B. Porter and J. L. Johnson and were of similar import. Mr. Porter was informed that his son William, in his 18th year, had applied for enlistment in Co. "A", 18th Regiment N. G. P. at Pittsburgh, passed the required examination and only needed his parents consent to become a full fledged soldier and defender of Uncle Sam and his flag. Mr. Johnson was informed that his son Wayne in his 16th year was in the same situation. Johnson has already been made Captain's clerk and both boys expect to be able to enter West Point after the Kaiser gets his licking.

Young Porter and Johnson left here last Friday on the 1:15 P. R. R. train—as runaway boys—but Clearfield was not inspired by discontent with home life. It was inspired by devout tendencies such as alts in boys leaving home. It was inspired by a sense of duty and patriotism and a desire to defend our country. When their absence was noted by their parents they were under the enlistment they probably knew parents would be loath to do. When their absence was noted by their parents they were under the enlistment they probably knew parents would be loath to do.

ad. Am alright. Do not let me. Left kind of sudden a fellow who was that train and I came with took an examination at the station and qualified very well. I need is your consent and says I will be shouldering a r Uncle Sam. Please sign a paper and have the Dismissal or Postmaster sign for me to get a job here until you. Send immediately, not the first time that boys away from home to enlist. I am not the only boys to enlist in this manner to defend of Old Glory but to know these boys there is a admiration for their manly-patriotic purpose. But if it is seen in their act how must be credited to the who are called upon to give. The fires of patriotism are home today but to those who are called upon to make own the greater devotion of first born on the altar of a human sacrifice that a Spangled Banner may wave "O'er the Land of the the Home of the Brave," because these boys were the go out of Clearfield in this cannot help but bid them who shall follow them God-All honor to Wayne Johnson and P. Porter. May they let honorably serve creditably and safely to the shelter of the glory of Uncle Sam.

Big Wage Increase For Brick Makers

Harbison-Walker Refractories Company Again Raise Their Men

The Harbison-Walker Refractories company posted notices at all their brick plants in this section Saturday last to the effect that beginning May 1st, 1917, all their employees would be granted a raise in pay of twenty cents per day.

The increase affects several thousand men in central and western Pennsylvania and will mean that common laborers at these plants will receive \$2.50 per day after May 1st.

The Harbison-Walker company also granted a 15 per cent increase in wages about March 1st.

In addition to the wage increase the employees at the different plants were also notified that they would be privileged to utilize any part of the lands of the company for gardens or farm purposes and the company would help them in every way to plant same.

This example should be followed by all our industrial and manufacturing plants wherever possible and will go a long ways toward solving the high cost of living problem.

He has been an American citizen for over thirty years. The usual evening meetings on the corner will be held tonight and after the street meeting Joe will give a sacred concert in the Army Hall to which an admission of ten cents will be charged. A special feature of the concert will be the exhibition of a two edged sword exactly of the kind described in the Bible.

Germany Tries Quietly To Revive Peace Talk

Agents Busy Fomenting Fake Peace Proposals to Fool Enemies

(By United Press)
The Hague April 16 1917.—Bulletin.—Secretly Germany is trying to revive peace talk. Rumors of peace are again current all over Europe and all seem to have their origin in the German empire or among their agents in other countries. Apparently there is a desire on the part of German diplomatic agents to keep alive this peace talk but whether it is for the purpose of keeping the subject open or simply to throw enemies off their guard remains to be seen. In December Germany asked for peace on their conditions and were refused and it is thought that they wish to keep the door open in case they decide to make another request for relief from the drain of war.

Scotty Soon Proved Himself An American

Issues Challenge to Another Resident Of Burnside

A detail of soldiers located at Dower Junction just below Burnside, arrived in town Saturday afternoon having in charge one Jack Davidson, of Glen Campbell. Jack was charged with showing disrespect to the flag.

He was taken before District Attorney Walter Welch and in response to a mild grilling soon told the story leading up to this arrest by the soldiers.

According to Jack's story, on March 21st he was in Burnside and some person pinned a miniature American flag on his hat. In taking his hat off the flag pin pricked his finger and without looking at it or knowing what it was he yanked the flag from the hat and threw it down. Harvey Strickland witnessed the incident and hotly resented the throw down of the flag. Jack got his Scotch up and a battle royal resulted in which Scotty gave a good account of himself.

The affair was more or less magnified, due to the state of public feeling just now and the arrest followed. At the conclusion of the young man's tale he strenuously asserted his loyalty to the flag and Uncle Sam and the District Attorney asked him why he didn't prove his patriotism by enlisting in the army. He promptly said he would if he could get to a recruiting office.

Lieutenant Everitt Noble who was in charge of the "prisoner" made a superficial examination of the prospect—a husky specimen of young manhood—and said he believed there would be no question about him being accepted as a soldier and District Attorney Welch went down in his jeans for money for transportation to DuBois and turning the recruit over to Officer John Devine of the DuBois police force, who happened to be present, sent Davidson out on the 7:15 train for enlistment.

On the way to the train the soldier stopped at The Progress office and asked us to publish this story and request Strickland to show his real patriotism by also enlisting.

COURT NOTES

Charles Conrad, Samuel Knolls and James Neff, who entered pleas of guilty to charges of assault and battery on Saturday morning out of the lot at the DuBois Brick works near Clearfield, on Thursday of last week, were sentenced by Judge Bell Saturday afternoon. Conrad and Knolls were given \$1 fine and costs and one year in the penitentiary while Neff was sentenced to Huntingdon reformatory. The prisoners were then paroled in the custody of District Attorney Welch and Probation Officer Leavy and the sentences suspended pending the payment of the costs and the continued good behavior of the men.

Joe Dauborrior, the 10 year old DuBois boy, who was before the court last week charged with robbing letter boxes in the DuBois postoffice and was paroled on his promise of good behavior, was before the court again this morning and was sent to jail pending final disposition of his case. Friday night the kid shinned up a rain spout and breaking a second story window, got into the Matthews book store in DuBois and robbed the money drawer of \$9.40 and swiped a lot of goods including a plentiful supply of American flags. He distributed the flags among his friends and this led to his downfall.

C. G. Lewis who has been in jail for several weeks, charged with defrauding the DuBois R. R. Y. M. C. A., was before the court on a plea of guilty and stated that he wished to enlist in the army if he was allowed to go. Judge Bell decided to give him a chance and paroled him in the custody of Probation Officer Leavy pending his enlistment.

Joe Bossman, of Osceola, entered a plea of guilty to a charge of assault and battery. Joe wanted to join the army and do his scrapping under orders but as he could not read or write and had never taken out "first papers" despite his eighteen years residence in this country, he couldn't make it and was sent back to jail until May court.

Judge Bell made an order and decree authorizing the supervisors of Decatur township to levy an additional tax of five mills for road purposes. The present millage is ten mills, but on account of the high cost of living this was insufficient to meet expenses and the additional millage was requested.

BULLETIN

Fighting around St. Quentin and Lens goes on with great fury, the Germans making two desperate assaults with the British stubbornly resisting them. On the other hand the British are quick to seize upon every opportunity to assault German forces and both sides are more aggressive in their fighting. For a time the Germans seemed to have the better of this morning's fighting but by a vigorous assault the British drove them back the two thousand yard foot-hold which they gained this morning. The evacuation of Lens goes on unabated and best informed military critics expect a retreat along the Western front by the Germans.

The ladies of Winburne have organized a Red Cross Corps and are rapidly getting in shape to service to their government. The ladies of Winburne are working with the corps at Philadelphia. A meeting was called here and there in charge were developed and enough volunteers for a complete corps. One hundred and eleven ladies make up the corps. A notable feature of this particular corps is the fact that it is composed of many nations.

HYPHENATE JAILED

Officer John Devine of the City of DuBois, brought an Austrian named Mike Smith to jail Saturday charged with carrying concealed deadly weapons and making seditious utterances against the American government and flag.

The Austrian was giving all things American a verbal lacing out in DuBois Friday night when an Irish American called him to task and put a stopper on his windpipe. The Austrian pulled a wicked looking stiletto but before he had a chance to wield the deadly weapon Officer Devine nailed him and Mayor Haug sent him to jail in default of \$500 bail to answer for his actions at May court.

New York April 16.—Five Americans, including the two former congressmen, Buchanan and Fowler of Illinois and former Ohio attorney general Monnett, went to trial in Federal court here today charged with conspiring to foment strikes in munition plants in the United States to prevent the manufacture of arms to be used against Germany. They have denied their guilt. They were members of Labor's National Peace Council, a pro-German organization and were connected with Franz von Rittlin, German plotter.

Carranza In Speech To Mexican Congress Declares Neutrality

Speaks For Four Hours From Carefully Written Manuscript and Touches On All Affairs of The Nation

WASHINGTON OFFICIALDOM IS RELIEVED

Mexico is neutral. This statement brought general relief to official Washington this morning when the state department received the answer from Carranza for which they have so long waited and at times despaired of completely. President Carranza yesterday afternoon made a speech to the Mexican congress which is the first one to be delivered in four years. In fact the Congress has not had a regular meeting for that period. He spoke for four hours and read it from manuscript of 200 pages, carefully and closely typewritten. He read in detail on all questions affecting the Mexican American situation and while diplomats sat in expectancy for some reference to the United States he did not touch on it until late in his address but when he did he explained the position of Mexico in unmistakable words of strict neutrality. Several months ago a note was sent to Carranza asking the views of his nation on the World War and this is the first intimation of what the country Mexico would be. The situation so far as the state department at Washington was concerned had grown tense over what they thought was an unwarranted delay in answering the query.

Both bride and groom are well known young people and The Progress join their host of friends in wishing them a long and happy married life.

SARDINES GOING UP

Eastport, Me., April 16.—And so the humble Maine herring, masquerading under the name of sardine, is to contribute its bit to the high cost of living. They are also hampered by an unusual amount of damage to the weirs by winter storms. Leading packers estimate that the cost of production will be 50 per cent higher than last season, necessitating increased prices for their output.

"To sow discord among the Germans in America is to encourage treason" is the statement of the N. Y. American which is reproduced in the New World (The Fatherland in the current issue. It must be hard for Viereck to understand this phrase. It is possible that he has put the wrong meaning on it, a la Kultur as it were, for when The Fatherland was in full swing George was some dandy gardener when it came to sowing seeds of discord.

SOMEBODY'S MOVE

A few months ago a campaign slogan was Patriotism, Protection and Prosperity but it was the Republican slogan and many have forgotten it by this time. All three still live. Patriotism is rampant. Protection (bodily) is guaranteed us by our military visitors and Prosperity is bringing joy to every household. No, this is not to be a political editorial. We must forget politics for the present. All must answer to the call "Americans" and know Americanism only.

Protection is the word about which we wish to speak here. Protection ought to mean, so far as neighborhood and community affairs are concerned, preservation from loss, injury or annoyance. Ofttimes, however, the word takes on a new meaning. A protection of a private interest or private interests take precedence over the protection of the community or public. This form of protection is responsible for the little annoyances which we condone until they have grown to real evils and disgraces. This form of protection is responsible for the first mongrel dog running loose on our city streets without collar and tag. Very soon others are turned loose until a whole pack can be found most anytime you look out on the streets. Such was the case yesterday and has been the case for some time. Somebody is lax in their duty as an officer. It is not our place to name them. We have been censored for "butting in or running the borough" but we believe the people of Clearfield have a right to something better than the spectacle that we have been treated to on the streets for the past two or three Sundays.

THE UNDER DOG AND THE GREAT

It is not always pleasant to handle the news, particularly when that duty involves the recording of court proceedings and infractions of the law by those who bear the stamp of respectability in their communities, nevertheless the newspaper must necessarily draw a line cutting off all friendship, and financial ties and handle the news of the day impartially. There are at times occurrences of a revolting and nauseous nature which it were better people did not know. Just what to put in this category must be decided by the editor of every newspaper. Public policy demands the suppression of details of many crimes. On the other hand there are many public questions on which the public demands to have all details. This is particularly true of the liquor dealer who disobeys the laws and rulings of the court. For several years judges have found the Brooks License Law to be a failure and have had to resort to special rulings to curb the unnatural appetite of man for rum and the greed of the dealer. Judges may not be willing to admit this but the very fact that special rulings have been made and are being promulgated is the best evidence in the world that the Brooks License Law is a failure. They who break the liquor laws and the special rulings of the Courts are on a par with all others who break the laws of our land. The liquor dealers are conversant with the law and know these rulings and yet both laws and rulings are frequently violated. We see no reason why they should not suffer the same penalty as the underdog who violates the liquor law. One thing is certain. We do not propose to make a weekly mention of the poor devils whose names appear on the records of criminal court and shield the name of him or they who by reputation, precept or example should have known better. A criminal is a criminal whether he be a wife beater, embezzler or violator of liquor laws and court rulings.

The Whatchama Column**BUTTONS**

In considering the great army of unemployed let us not forget buttons. No question about it, there are too many idle buttons in the world.

Thousands, yes, millions of them loaf around on clothes, with nothing to do. They congregate in long, silent rows on men's coatsleeves. They swarm on women's gowns, running aimlessly up and down seams and around collars, without a buttonhole to their name.

The worst about buttons is that they're never where they belong. No sooner do we get a bevy of them engaged in useful occupation on trousers, shirts and underwear than they begin to fly off and hide under beds and in other out of the way places, waiting their chance to flock uselessly upon some already buttonridden article of apparel.

The average button is a nomad; a ne'er-do-well. The vast majority of them simply will not go into a buttonhole and go to work.

We favor government regulation of non-productive buttons. There ought to be a commission appointed to control them.

FORMER LEGISLATORS ACCUSED

Little Rock, Ark., April 16.—The first trials in the so-called legislative bribery cases, in which former members of the Arkansas legislature are involved, is scheduled to start today. The first to be tried is ex-senator S. C. Sims. His trial is to be followed by that of I. V. Burgess, also a former member of the state senate. The two were arrested by city detectives late in February after it was alleged they had been caught in the act of receiving a bribe from John E. Garvey, a Burns detective in the employ of Prosecutor Dunaway, who presented himself as a lobbyist interested in killing a senate bill against gaming stamps. Both members were expelled from the senate after they had been indicted.

TO DISCUSS FOOD PROBLEM

Washington, D. C., April 16.—Problems of agriculture and the food supplies both for home and Europe's consumption are to receive attention at the hands of the National Academy of Sciences which met in this city today. Members of the academy subscribe to the view that the United States should send troops to Europe, but assert that would be impracticable unless the government could supply food in sufficient quantities both to maintain national welfare and to supply the Entente. The suggestion will be advanced at the present meeting that a committee of scientists be appointed to urge this phase of economic preparedness upon the government.

NEW MILLPORT

George Sloppy and wife of Akron, Ohio, but formerly of Clearfield, are visiting Mr. Sloppy's father, K. A. Sloppy of this place. George is coming back to his first love and says that he is contemplating making this his home town again. George, we welcome you and yours among us once again.

William Powell, of "Hillcrest," is making us all feel that spring is really here. His "Crest" is beginning to blossom as the rose, chicks are making themselves heard, his humbees are beginning to hum, his butterflies are beginning to flutter, and his old hens are beginning to "squack and squat over every chicken they got, and that old hen knows where that hawk is as well as you, just bet your life she do."

George Spencer, our accommodating blacksmith, has been confined to his house for several days on account of irregular heart action. We hope for his speedy recovery.

Our town veteran and nestor, H. J. Sloppy, has been confined to the house during the past two weeks. On rising one morning he found that a part of his body was not alive to its ordinary function and that his regular locomotion would have to be dispensed with. His friends think that it was not as the "Squire" thought, a slight stroke, but merely a deadening of the right

side limbs. During the past couple of days he has been able to leave the bed and appear at the table with the family. We all hope to see him well and hearty again soon. Mr. Sloppy belonged to Company A, 100th Pennsylvania Regiment, and is very interesting on war topics particularly on Petersburg, Fort Steadman, Appomattox, where he was present during those trying times.

Mr. and Mrs. Chester Bloom of Altoona, are visiting their parents, Mr. and Mrs. John C. Bloom and Mr. and Mrs. George Spencer. Chester expects to domicile in Clearfield in the near future.

"The Roister Doister Dramatic Company" of New Millport, gave us a most excellent evening's entertainment last Friday night in the K. G. E. hall. "All A Mistake," a three act farce-comedy was rendered in a most charming and lively role. Guy Sloppy, although "a little horse" played the role of Lieutenant George Richmond in a most acceptable manner. Captain Obadiah Skinner, uncle of George was impersonated by Lowry Norris. Lowry showed that he could act old even if he is so young. Richard Hamilton by Ivan Sloppy had many clever but trying parts in the comedy, but Ivan came out of them all even if some of the furniture did stick to him. Clifford Biddle acted "Ferdinand Lighthouse," "Doncherry-know." Rev. Biddle scarcely knew his own son and we are informed that "Ferd" had trouble in reinstating himself into the good graces of his best girl, so well did he act the "dude." Miss Kitty Biddle played the part of Nellie Richmond the Lieutenant's wife. Miss Biddle did her part admirably as did her sister Miss Josephine Biddle, who was Miss Nellie Huntington and ever ready to help her friends out of difficulty. She went the limit however in showing what a woman would do to gain the man she loves. Miss Edna Glenn acted the part of Nellie McIntyre the servant girl. Edna demonstrated her ability to interpret the every-day things of life even though it is an Irish girl's life. Miss Orpha Sloppy took the part of Nellie Skinner the Captain's sister. Miss Sloppy did her part charmingly well. In fact Orpha does every thing she undertakes completely and thoroughly. This play will be repeated in the K. G. E. hall Friday night of this week. This will give an opportunity to those to hear it who could not get in last Friday night on account of the large crowd.

One of our patriots received the following letter last week:

Dear Sir,
Replying to your letter of the 6th instant, addressed to the secretary of the navy and by him referred to us, the chief of bureau directs me to inform you that, owing to your age, it will be impossible to authorize you to enlist in the regular navy and to thank you for your offer of service. It is suggested that you take up with the nearest Navy recruiting officer the subject of enrolling in the navy reserve.

Respectfully,
L. B. PORTERFIELD
Lieutenant Commander U. S. Navy
New Millport is alive with patriotism as any one visiting our town will note by the stars and stripes as displayed from the many buildings, but the above letter shows that we are willing to do more than display the colors and talk war.

PIMPLY? WELL, DON'T BE!

People Notice It. Drive Them Off with Dr. Edwards' Olive Tablets

A pimply face will not embarrass you much longer if you get a package of Dr. Edwards' Olive Tablets. The skin should begin to clear after you have taken the tablets a few nights. Cleanse the blood, the bowels and the liver with Dr. Edwards' Olive Tablets, the successful substitute for calomel—there's never any sickness or pain after taking them.

Dr. Edwards' Olive Tablets do that which calomel does, and just as effectively, but their action is gentle and safe instead of severe and irritating. No one who takes Olive Tablets is ever cured with "a dark brown taste," a bad breath, a dull, "no good" feeling, constipation, torpid liver, bad disposition or pimply face.

Dr. Edwards' Olive Tablets are a purely vegetable compound mixed with olive oil; you will know them by their olive color.

Dr. Edwards spent years a pug patient afflicted with liver and bowel complaints, and Olive Tablets are the immensely effective result. Take one or two nightly for a week. See how much better you feel. 10c and 25c per box. All dr.

Atlantic Gasoline has always been a "boiling-point" gasoline. Its fame has been built around the fact that the boiling point is always uniform, assuring each new lot of gas you put in your car to be exactly like the last, thereby banishing the need for frequent carbureter-adjustment.

It must be gratifying to the thousands

of motorists who use and have used Atlantic Gas to know that it conforms to the Government's idea of what good gas ought to be. You new motorists: Fill your tank with Atlantic Gasoline, once. You won't need urging after that first tankful. Wherever you live, drive, park or store in all Pennsylvania and Delaware, you can get Atlantic service. So—get it.

Sewing Week

While Spring Sewing Needs Are Uppermost in the Minds Of Women We Announce Home Sewing Week

That the events of this store are always timely is evinced by the fact that this Home Sewing Week comes at the very time when women are buying materials for Spring and Summer clothes and everyone is bent on making new Spring garments. Very special displays have been made of materials of every nature, so as to allow you to make choice of such materials as you are most interested in. Visiting the store during this week secures for you the advantage of seeing our entire dress goods stock on display at one time and to be able to make selection with ease and satisfaction.

It's Only Natural For You to be Interested In This Display of Spring Wash Fabrics.

Every woman will be delighted to view this showing for what women is there who is not now thinking of wash frocks, for the spring and summer days are a'coming? And can you remember ever having seen such wonderfully colored materials as are to be found for this season? Another surprising thing is that these pretty wash materials are marked at EXTREMELY MODERATE COSTS. Any number of women have asked to be shown a certain design and then look at our sales person in amazement when the small cost was mentioned. Some went so far so to say—"Why, these look like silks. I expected they would cost double that price." Most women will visit this wash goods display right after the breakfast table has been cleared.

Gladys Brockwell Takes Two Roles in Production 'Sins of Her Parent' Her First Starring Vehicle

Special at the Globe Theatre Today

Two figures stand out in sharp contrast in the William Fox photoplay starring Gladys Brockwell "Sins of Her Parent." On the one hand is the Southerner, the man of proud family, who will not see his name dragged in the dust; on the other is the girl who loves the Southerner's son and cannot marry him because of her own uncertain birth. The struggle between the two and the final agreement of the father in the presence of a heroic man, form the thread of the story.
